

# **NEW** Thermocouple Probe

**Ultra small !!  
Easy Operation !!**

**Best Accuracy !!  
Built-in Socket !!**

## Features

- Contact to package surface directly and can measure the package temperature (Tc) accurately.
- Ultra small ( $\phi 1.5 \times 5.0\text{mm}$  & 8.4mm)
- Built-in socket and save the space

## Specification

- Measuring temperature range : -50~250 degree C
- Using "K-type thermocouple"
- Cable length : 300mm & 1000mm
- Stroke : 0.5mm or 2.0mm
- Spring force : 40g @0.4mm stroke
- Durability : 100K cycle @0.4mm stroke
